REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the prior art of record teaches a thin film transistor array panel comprising: an insulating substrate; an opaque film formed on the insulating substrate; an insulating layer covering the opaque film and having a contact hole exposing the opaque film at least in part at a contact portion and having a plurality of boundaries, at least a portion of the boundaries located inside boundaries of the opaque film; and a conductive layer formed on the insulating layer and connected to the opaque film through the contact hole. The prior art of record does not teach nor suggest, in combination with the limitations supra, a distance between one of the boundaries of the contact hole of the contact portion at a place where alignment treatment or rubbing ends and one of the boundaries of the opaque film located outside the contact hole is wider than a distance between the boundaries of the contact holes at other places and the boundaries of the opaque film.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to James A. Dudek whose telephone number is 571-272-2290. The examiner can normally be reached on 9:00-5:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Nelms can be reached on 571-272-1787. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
